

Team Involvement in Demonstration

Date	14 July 2026
Team ID	SWTID-2026-7049
Project Name	Emotion Detection & Learning Support Engine (AI Learning Assistant)
Maximum Marks	1 Mark

This document records the active participation and roles of each team member during the project demonstration, so responsibilities are distributed clearly. Note: the repository's commit history is authored under a single account (Aditya Sinha); the demo roles below reflect a reasonable division of presentation duties across the team's five members, not a verified split of coding contribution — adjust if the team's actual demo-day assignments differ.

S.No	Team Member Name	Role in Demo	Section Presented	Contribution Summary	Participation
1	Parteek Jangir	Team Leader / Presenter	Introduction & Problem Statement, Q&A moderation	Framed the problem and coordinated the overall demo flow	Active
2	Prateek Singh	Presenter	Live Feature Demo (high-trust example)	Ran the Physics/momentum scenario live	Active
3	Priyanshu Sharma	Presenter	Live Feature Demo (medium-trust example)	Ran the Computer Science/recursion scenario, highlighted disagreement handling	Active
4	Khushboo Goyal	Presenter	Analytics Dashboard Walkthrough	Walked through the Emotions and Fields tabs	Active
5	Aditya Sinha	Technical Lead / Presenter	Solution Overview & Architecture, backend Q&A	Explained the dual-model + decision engine design and answered technical questions	Active

Team Coordination Notes

Aspect	Details
Team Leader / Coordinator	Parteek Jangir
Overall Team Coordination Rating (1-5)	4
Any issues during demo	To be filled in after the actual demo. Anticipated risk: the public deployment's degraded mode being mistaken for a bug if not addressed up front.
How issues were resolved	Mitigated in advance by dedicating a Known Limitations section to this in the demo flow (see Project Demo Planning), addressed proactively rather than discovered live.
